MANUFACTURING TECHNOLOGIES

We provide a wide range of manufacturing technologies in composites, plastics, PU foam, and metal fabrication. From precision moulding to high-strength structures, our processes ensure consistent quality, scalability, and superior performance. Our in-house toolroom designs and develops moulds, jigs, and fixtures, enabling faster prototyping, lower costs, and secure design confidentiality.

INDUSTRY-FOCUSED OFFERINGS

We deliver application-specific components for key industries, including wind, rail, automotive, marine, medical, and other allied sectors. Our solutions are engineered to provide performance, durability, and regulatory compliance, meeting the unique demands of each industry.

Wind Energy

- Nacelle Covers
- Spinner Covers
- Metal Fabricated Structures

Railway

- Coach Interiors – Side Panels, Ceiling Panels
- Modular Toilets
- PU Foam for Coach Seating

Marine

- Boat Interior & Panels
- Hull & Structural Parts
- Ladders, Steps & Safety Platforms

Electrical

- Electrical Enclosures & Panels
- Insulated Bus Bar Supports
- Cable Trays & Junction Boxes

Medical

- Diagnostic Device Housings
- Equipment Covers & Casings

Chemical

- Tanks & Vessels
- Scrubbers
- Support Structure and Gratings

Automobile

- FRP Bumpers, Spoilers & Side Skirts
- Dashboard & Interior Trim Panels
- Composite Body Panels & Structural Reinforcements
- FRP Battery Enclosures & Mounting Brackets
- FRP Underbody Shields & Wheel Arch Liners
- PU Foam Seats, Armrests & Headrests
- Dampening Foam
- Plastic parts for masking

Commercial Vehicles

- FRP Body Panels & Roofs
- Composite Wheel Arch Liners & Underbody Covers
- Interior Trim Panels
- FRP Battery & Equipment Enclosures
- PU Foam Seats & Headrests

About Us

We are specialists in contract manufacturing of fibre-reinforced composites, plastic parts, PU foam components and metal fabrication. Operating from our state-of-the-art facility in Nashik, near Mumbai, we are strategically positioned to serve both Indian and global markets. Committed to quality, innovation, and sustainability, we deliver customized solutions with unmatched reliability and service excellence.
